

Solar panels on rooftops in Dhaka

Overview

In a densely populated city like Dhaka, there is no alternative to installing and effectively operating rooftop solar panels as a renewable energy solution. Achieving new rooftop solar capacity of 3,000 megawatts (MW) in less than six months would require scaling up installations to more. Rooftop solar energy is a viable answer to these difficulties, offering a clean, renewable power source that reduces reliance on the national grid and decreases electricity expenses. Bangladesh is located at the right geographical location can take full advantage of the infinite resource and technology. Veritas Engineering & consultant leading.
