

# Spain Barcelona invests in solar glass

## Overview

---

Recent breakthroughs like perovskite solar cells have pushed transparency rates to 80% while maintaining 15% efficiency – perfect for Barcelona's glass-fronted office towers. The latest trend?

Solar-responsive glass that automatically tints to optimize energy. Onyx Solar supplies its innovative technology to the modern Sea Towers complex located in the heart of Barcelona. Nearly 1,000 glasses with different. These towers boast remarkable energy efficiency, achieving a 52% energy saving. Onyx Solar's solar photovoltaic glass adorns the curtain wall of the Sea Towers, comprising 1,520 m<sup>2</sup> of amorphous silicon photovoltaic glass customized in various dimensions. Located in Castellar del Vallés, Barcelona, Spain, this ambitious project signals Vidrala's unwavering commitment to a. Vidrala starts up and energizes the solar photovoltaic plant at its Barcelona installations Vidrala, the leading glass container manufacturer, has started the commissioning of its Castellar Vidrio photovoltaic plant with the energization of the new installations at the factory located in Castellar. The Spanish solar glass market stands at a critical inflection point, propelled by an unprecedented national and European commitment to energy transition and energy security.
