

# Special ticket for photovoltaic panels

## Overview

---

The short answer is no, you can't get free solar panels from the government. That being said, there are many incentives put in place by the Federal Government to help homeowners transition to solar energy to power their homes. It does not constitute professional tax advice or other professional financial guidance. Join over 8,000 people who received a free, no obligation quote in the last 30 days. The residential solar panel tax credits start phasing out. Use this solar incentives calculator to find out how much you can save on solar panels for your specific home Last Updated February 2026 Written by Ben Zientara Ben Zientara Ben Zientara is a writer, researcher, and solar policy analyst who has written about the residential solar industry, the. Rebates and incentives are a crucial way to encourage broader adoption of solar energy and full home electrification across the country.

Final Word on Solar Incentives

Rebates are a great way to save money on solar panels. Solar rebates are often tied to a specific utility and paid directly to the solar installer to reduce the customer's upfront cost of going solar. This reduction in cost affects the amount of solar tax credits you can receive. For example, if you get a \$1,000 rebate off the cost of a \$20,000 so See more on solarreviews
