

Sri Lanka lithium iron phosphate portable energy storage power supply manufacturer

Overview

Discover POWER CELL's reliable renewable energy storage lithium iron phosphate (LiFePO₄) battery pack. Efficient 5KWh 48V solar batteries for sale in Sri Lanka. Our low voltage DC battery pack is compatible with a range of inverters to deliver an operating voltage of 48V while being flexible enough to cater to. At IMEX Solar we provide tailor-made engineering solutions to suit individual project requirements by integrating the latest technology developments into our project solutions. Our engineering team excels in addressing specific consumer needs and developing superior quality solar power systems to. 60 - 72 kWh capacity. 48v Lithium Iron Phosphate has twice the power, half the weight, and lasts 8 times longer than a sealed lead acid battery, no maintenance, extremely safe and very low toxicity for environment. Low self. With over 6000 charge cycles, this battery offers exceptional longevity, reducing the need for frequent replacements and ensuring long-term savings for users investing in sustainable power solutions. Additionally, they are considering making Battery Energy Storage Systems (BESS) mandatory.
