

# Tallin New Energy Energy Storage Chemical Pump

## Overview

---

Tallinn-based Zero Terrain has partnered with the Estonian government to develop Estonia's first pumped-hydro energy storage project, a key initiative in Estonia's renewable energy strategy. Utilitas opened the largest thermal storage facility in the Baltic States, with a capacity of 1100 MWh, at the Vão energy complex in Tallinn, which enables to harmonise daily energy production and reduce the use of fossil fuels. "In today's energy industry, where flexibility and efficiency are. As Europe races toward 2030 renewable targets, the Tallinn Power Storage Project has become a litmus test for grid-scale battery viability in northern climates. The Baltic & Nordic Energy Summit will be held at Swissotel Tallinn on 12-13 November 2024. 5 billion EU call for hydrogen projects.

Tallinn-based Zero Terrain has partnered with the Estonian government to develop Estonia's first pumped-hydro energy storage project, a key initiative in Estonia's renewable energy ...

**Efficient**  
Higher Revenue

- Max. Efficiency 97.2%
- Max. PV Input Voltage 100V
- 100% Peak Output Power
- 2 MPP Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

**Intelligent**  
Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart IV Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Surge SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible**  
Abundant Configuration

- Plug & Play, UPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. Surge Inverter Threshold
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

As Europe races toward 2030 renewable targets, the Tallinn Power Storage Project has become a litmus test for grid-scale battery viability in northern climates.

## WHAT ARE THE ENERGY STORAGE PROJECTS IN ESTONIA

The firm behind the energy storage project is the Estonian startup Zero Terrain, and they are not shy about the touting the supply chain advantages of hydropower over other systems.

## Utilitas opened the largest thermal storage facility in the Baltics

At the Vão energy complex in Tallinn, green energy is produced in two high-efficiency combined heat and power plants and two solar parks. Photos of the thermal storage facility and the ...

## Heating Tallinn efficiently with innovative GEA heat pumps

The Utilitas Vão energy complex uses a highly efficient biomass CHP plant and four GEA heat pumps to supply district heating to around 8,000 homes and businesses in Tallinn, Estonia.
