

# TcL The largest photovoltaic panel in Central China

## Overview

---

TCL Zhonghuan has launched its T5 Pro high-efficiency solar module series in Beijing, describing the line as the company's new N-type TOPCon flagship and a “strategic step toward higher-value, application-driven differentiation amid intensifying competition across the PV supply chain. ”. Innovation fueled by world-class expertise 19% of global production capacity in 2024 Discover the latest! Leading the global transition towards a more sustainable, energy-independent future, powered by innovation and clean technology. When you visit this. TCL Photovoltaic Technology is a subsidiary of the Chinese TCL Technology Group, specializing in green energy solutions. Founded in China, the company is renowned for its innovations in the renewable energy sector and has quickly established itself as a major player in the photovoltaic industry. Founded in 1981, TCL has grown into a globally competitive intelligent technology industry group over its 42-year. In the latest 2024 global module shipment list released by an authoritative organization, TCL Zhonghuan (SZ:002129) is not in the top 10. In the longer list surveyed by the domestic media, TCL Zhonghuan's photovoltaic module brand "Huansheng Solar" ranked 15th, with annual shipments of 7.995GW -. The Chinese manufacturer said its new T5 Pro modules features high power density and low-current, low-resistance profile. The series has a power output of 480 W to 760 W and a power conversion efficiency of up to 25.6 billion to build a 25 GW solar cell industry 4.0 smart factory project, mainly producing G12 N-type TOPCon cells, with an expected.
