

**The energy battery cabinets at  
the Netherlands site are all  
215kWh**

## Overview

---

With a capacity of 215kWh and a cycle efficiency of 91.3%, the BESS offers reliable performance and efficient energy management. The system operates reliably between -30°C and 55°C and is equipped with advanced safety features such as active balancing and fire safety technology. Namkoo NKB Series 215kwh commercial & industrial energy storage system adopts the all in one design concept. The cabinet is integrated with battery management system (BMS), energy management system (EMS), modular power conversion system (PCS), and fire protection system. The system's capacity is up to. A renowned restaurant in the Netherlands has taken a significant step towards energy efficiency and sustainability by installing the MOTOMA M50-100 Smart Energy Storage System. Rated Energy 215kWh high voltage battery (5 battery modules) Features Supports. The C&I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as peak shifting, energy back-up, demand response, and increased PV ownership. A self-sufficient setup with an integrated multi-level BMS for.
