

The latest requirements for photovoltaic panel pallets

Overview

Complete specifications for standard and custom solar panel pallets. View dimensions, load capacities, materials, and technical details for all pallet types. Series X is designed for solar modules between 63. Interior Dimensions (L x W x H): 83. 8" x. Always insert the fork from the short side of the pallet, as long as it is safe to do so. Use forklifts with a backrest greater than 48 inches. They help installers and warehouse teams safely store, move, and handle solar panels—from delivery and warehouse storage to. Our engineering team can design pallets to meet your exact requirements. For. With photovoltaic (PV) panel installations projected to grow 19% year-over-year, getting stacking requirements right has never been more urgent. But wait, how exactly should you stack these fragile glass giants without turning your solar farm into a crystal graveyard?

Well, let's break it down.
