

# Tile stacked solar cells

## Overview

---

The short answer is yes—but it requires careful planning and the right installation technique to ensure your roof remains intact and your solar system lasts for decades. Let's explore the unique challenges of installing solar panels on tile roofs and the best methods to do it safely. Solar Stack is an innovative and damage-free solar panel mounting system that revolutionizes the way solar panels are installed on roofs. Unlike traditional methods that involve drilling holes and potentially causing damage to the roof, Solar Stack utilizes a spray polyurethane foam adhesive to. The elegance and durability of a tile roof are unmatched, but they present unique challenges when it comes to mounting photovoltaic (PV) panels. Looking to go solar but worried about your beautiful tile roof?

You're not alone—homeowners with tile roofs often.
