

Utility-scale solar sri lanka

Overview

Sri Lanka has started building its largest renewable project, a \$140 million, 100 MW solar park with 12 MWh of storage. It is expected to annually generate 219 GWh and cut \$69. 7 million in diesel imports by 2027. Image: President of Sri Lanka's Media Divison. Colombo, J- Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MOU) with Solaris Energy (Pvt) Ltd., a leading solar distributor in Sri Lanka, to collaborate on the supply and deployment of 25 megawatt-peak (MWp) of solar modules. Among the most promising pathways is the widespread development of large-scale solar farms—vast installations designed to produce clean, renewable electricity for the national grid. ☐☐ Vavunativu Solar Power Plant – Batticaloa (10 MW) A joint venture between Vidullanka PLC and Wind Force, this facility is expected to supply 19. Utility-scale solar sri lanka

[The Future of Large-Scale Solar Farms in Sri Lanka](#)

With supportive policies, cutting-edge technology, and expert implementation, utility-scale solar farms are poised to become the backbone of Sri Lanka's renewable energy transformation.

[Trinasolar And Solaris Energy Collaborate To Deliver 25 Megawatt ...](#)

The two companies signed a Memorandum of Understanding (MOU) at SNEC 2025 in Shanghai, the world's largest solar industry exhibition. The agreement outlines plans for the supply ...

[Trinasolar & Solaris to deploy 25 MW PV modules across Sri Lanka](#)

Solaris Energy is set to nominate Trinasolar as a subcontractor for utility-scale projects, pending final agreements. The partnership aims to support Sri Lanka's energy transition with ...

Supreme Solar

Scheduled to begin in November 2025 and complete by December 2027, this project represents a significant step in Sri Lanka's transition to a cleaner, more secure energy future while offering ...

[Sri Lanka's Solar Capacity Expands - Two New Utility-Scale Projects](#)

Sri Lanka's renewable energy landscape continues to evolve, with July 2025 marking the commissioning of two significant solar installations.

[Trinasolar Solaris Energy Partnership Powers Sri Lanka Solar](#)

The Trinasolar Solaris Energy partnership outlines the delivery and installation of 25 MWp of solar panels across Sri Lanka. This partnership shows that Trinasolar is becoming more important in the ...

[Sri Lanka breaks ground on 100 MW solar project](#)

Sri Lanka has started building its largest renewable project, a \$140 million, 100 MW solar park with 12 MWh of storage.

[Trinasolar and Solaris Energy forge deal to power Sri Lanka's solar](#)

The MOU reflects Trinasolar's commitment to the South Asian market, where the company is expanding its presence through high-efficiency, utility-scale solar deployments.

[Trinasolar partners Solaris Energy to deliver 25MWp of utility-scale](#)

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MoU) with Solaris Energy Ltd., a leading solar distributor in Sri ...
