

Waterproof installation solution for outdoor telecom enclosures

Overview

Add weatherproof features like NEMA or IP ratings for protection. Pick a trusted seller with good support and quality checks. Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices. Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies. As fiber splice enclosures, and access points become more and more common, our waterproof non-metallic enclosures are hands down the ideal weatherproof solution all your outdoor fiber splice needs. Designed to exceed both installation and end-user needs, Fibox products use FIP PUR gasketing. Whether it's extreme temperatures, rain, snow, dust, or corrosive substances, these enclosures act as a barrier, shielding critical components from damage. In the. Telecom networks are rapidly expanding to the edge—closer to users, IoT devices, and real-time applications.
