Detailed profile including pictures, certification details and manufacturer PDF. Detailed profile including pictures, certification details and manufacturer PDF. The 750W rating tells only part of the story. Modern panels combine three critical elements: You know the theory, but here's the practical truth: a 750W panel's 1134mm width actually improves racking compatibility. The Higon HJT Bifacial Half-cell Module can reach power output up to 750W. System Voltage (V) : Stringent quality control is the cornerstone of Higon's manufacturing. Our customers have come to expect uncompromising quality. - Engineered for utility-scale solar farms and ultra-powerful commercial projects, the UE750H-66HBD is a top-tier HJT bifacial solar module offering up to 750W output and 24. Excellent Anti-PID performance guarantee via optimized mass-production process and materials control. 0 technology has better reliability and lower LID/LETID.
