

What brand of 21700 battery is used in Murray GT700

Overview

The Samsung INR21700-40T is a highly regarded high-drain 21700 battery, offering a nominal capacity of 4000mAh and a substantial 35A continuous discharge rating. Its increasing adoption necessitates a thorough understanding of the factors contributing to peak performance. **Maximum Power** - With 20V voltage and modern 21700 cell technology, this battery delivers consistently high power for power tools. It optimizes workflows and ensures precise results. **Long Runtime** - Thanks to its 4Ah capacity, the battery reliably powers tools over extended periods. **7V 2-Pack** truly surprised me with how steady and long-lasting they are during intensive use. As the demand for efficient power sources grows, understanding the features and specifications of these batteries becomes increasingly relevant.
