

What does the photovoltaic panel line warranty mean

Overview

A solar panel warranty is a formal commitment from the manufacturer that assures the solar panels will function properly and meet performance expectations over a specific period, usually between 10 and 25 years. Deciphering these warranties can be challenging, given the intricate technical and legal. Below is a simple guide to the three core warranty types and how to read the fine print so you know exactly what is covered. Usually guarantees a max annual degradation rate and a final output level after 25 years. Covers panel failures due to defects, not damage or misuse. Ultimately, they provide you with peace of mind for your solar investment and can save you money on repairs or replacements if you do run into any issues. Why Do Solar Panel Warranties.
