

What is the current tax rate for wind power generation

Overview

Facilities placed in service before Janu, can claim up to 3 cents per kilowatt hour for wind and geothermal energy, while facilities placed in service after that date receive a reduced rate of 0. 6 cents per kilowatt hour (but can get the full 3 cents if prevailing wage. The federal government provides tax credits for investments in energy sources that generate electricity without emitting carbon dioxide in the process. Two tax credits, the investment tax credit (ITC) and the production tax credit (PTC), directly support investment in wind and solar electric power. The Notice, issued on Aug, provides guidance on when construction of a wind or solar facility is considered to have begun, which is relevant for determining whether a facility qualifying for tax credits under Section 45Y or Section 48E of the Internal Revenue Code must be placed in.

What is the current tax rate for wind power generation

[Business Tax Credits for Wind and Solar Power](#)
