

# What kind of generator should be used in solar power station

## Overview

---

When choosing a solar generator, two key specs matter: watt-hours (Wh): How much energy it can store. For example, small portable generators might offer 200-500 Wh, enough for charging phones, lights, or a. There are two primary classifications of solar generators: portable and home backup solutions. Home backup generators are usually more. Solar generators, also known as solar power stations, are an eco-friendly way to harness energy from the sun to run electric appliances and charge digital devices.
