

Where is the Argentina Telecom BESS power station

Overview

A union safety inspection report (CePETel) states the facility is located on Ruta Provincial E-96, approximately 60 km southwest of the City of Córdoba, and provides site coordinates (31°31'27" S, 64°27'49" W). The Argentine Energy Secretariat has received significantly more bids than expected for its public call to install large-scale battery energy storage systems (BESS) in the Buenos Aires metropolitan area (AMBA). Although the tender aimed for 500 MW, the AlmaGBA procurement drew proposals totaling. As of most recent estimates, the cost of a BESS by MW is between \$200,000 and \$450,000, varying by location, system size, and market conditions. This translates to around \$200 - \$450 per kWh, though in some markets, prices have dropped as low as \$150 per kWh. The project's estimated value is \$500 million, with an execution period of 12 to 18. Telecom Argentina S. The gross colocation space is not available for this data center.
